- Inhouse marketing department to help design and develop your brand

Trust us and challenge us to find your customized solution!

Let our product experts and design department guide you. We can assist you with design, colors, sizes - down to the smallest details!

Our assortment of **Coffee Cups**, brand your message!

SINGLE-WALL CUPS

A Single-Wall cup provides a large, smooth printing area.

DOUBLE-WALL CUPS

Double-Wall cups are made of two layers, which provides insulation.

PRINT-INSIDE

Print on both the outside and on the inside of your cup to create maximum utilization.

WAVE

Give your message an edge and let your brand stand out.

■ RIPPLE-WRAP™

Ripple-Wrap[™] is a unique and different hot cup that provides perfect insulation.

EMBOSSING

Create a unique experience and use embossing to clarify your message.

Your expert in printed food packaging

We can create custom print on all hot cups, PET cups, drinking trays, paper bags, carriers, and many other packaging types.

We work with advanced equipment for flexo and offset printing to secure a good print result. Based on our long experience with printed items, our product experts and marketing department can guide you to achieve the best result.

PET Cups

Our wide and popular range of PET cups are perfect for smoothie and iced coffee in coffee shops. We try to make work easier for Baristas and the guests.

For example, we have a one-lid – four-cups solution available for PET and hot cups

DID YOU KNOW?

Mighty Drink Tray

- It's printable

- Gives a unique look
- Made from unbleached paper
- Printable from 100.000 pcs.

BRAND YOUR ENVIRONMENTAL POSITION

Preserving the environment is an important part in all of Abena, and both when producing and sourcing products, we believe in the importance of protecting the environment.

This is the reason why we offer our customers the option to buy FSC® certified paper and PLA coated compostable hot cups along with many other environmentally friendly products of e.g. bagasse and wood. In our range, you will find hot cups, drinking cups, plates, cutlery and stirrers made of compostable material and with environmental certificates.

BARESSO COFFEE AND ABENA

The Danish coffee shop, Baresso Coffee, is a well-established chain with 50 coffee shops in Denmark.

The owner, Kenneth P. Luciani has built his coffee shops with passion and uncompromising demands within quality and taste. And these specific corporate values were shared with Abena, and is the basis of how our cooperation started.

The request from Baresso Coffee was simple

Can you produce the same, high quality hot cup for us - each and every time!?

The request was put out to tender – a tender which Abena won because of high quality products at competitive prices.

We developed a range of hot cups and PET cups in the specific colors and design of Baresso Coffee; well known all over Denmark. We further developed one lid to fit different sizes of hot cups to make it easier for the baristas and guests of Baresso Coffee.

Anders Wall, Chief Commercial Officer of Baresso Coffee says:

Working with Abena, made it possible to produce the perfect solution for our coffee shops and guests. We asked for a customized solution, and Abena made it happen. We are very happy with the solution and will definitely continue our corporation with Abena.
